Sir:

In the interest of full disclosure, the following items are herewith identified in Form PTO-1449 and a copy of the same is hereby provided, for the convenience of the U.S. Patent and Trademark Office.

This Information Disclosure Statement is being filed before the mailing date of the first official action.

**FOREIGN PATENTS**

(AA) JP 08-188896 Ando Koji, et al, dated July 23, 1996. The relevance of this document is that it was cited as a category X reference in the International Search Report. It was also cited as a category "P" reference indicating that it was published prior to the international filing date but later than the priority date claimed. Also, its citation is apparently because it relates to a device and a method for electroplating a chip wherein two referenced electrodes are used.

A copy of the same in the Japanese language was provided with the IDS filed December 15, 2004.

A copy of an English language "patent abstracts of Japan" regarding the same is provided herewith.

Respectfully submitted,

John F. McNulty
